Achievement

Pharmacy Management System[Video profile]

Developed Case Study on Pharmacy Management System which is a Web based System where doctor can easily find required drugs from the website This project will break the old-fashioned way of buying drugs from the supplier directly in this project the doctor can directly buy required drugs from supplier in just one click and then the order will be processed by the admin It saves a lot of time to doctor. Doctor needs to Login-by-Login doctor can decide which service he/she has needs.

DEGREED

Successfully completed the degreed training in Git, HTML, CSS, SQL, C#, .NET Core, and
